

## Milwaukee M18 FMDP5F 18 volt Cordless Magnetic Base Drill

### PRODUCT DESCRIPTION

The Milwaukee M18 FMDP5F 18 volt cordless magnetic base drill provides comparable drilling performance with mains powered machines with sufficient battery life to drill up to 40 18mm holes per battery charge. The machine features a self-powered, permanent magnet with a holding force of 8,890N to prevent accidental magnet deactivation for improved user protection and easy alignment. A 2-speed gear box optimises drilling speed for when using annular cutters or twist drill bits. Maximum drilling capacity is 13mm for standard drills and 38mm using broach type cutters. Supplied with 2 x 18 Volt 5.0Ah Li-Ion batteries, charger and carry case.

### SPECIFICATION

The REDLINK PLUS™ intelligence system delivers the most advanced digital overload and blade lock-up protection and uniquely enhances the tool performance under load. AUTOSTOP™ lift-off detection detects excess rotation and automatically cuts power to the drill for user protection

Specification:

- Input power: 18 Volt
- Battery pack capacity (Ah):5.0
- of batteries supplied: 2
- No load speed: 400/690/min.
- Magnetic adhesion: 8,890N (906.53kg)
- Max drilling solid bit: 13mm
- Max broaching capacity: Diameter: 38mm, Depth: 50mm
- Stroke length: 146mm
- Two position handle, left/right hand
- LED light
- Weight (With Battery): 13kg
- Supplied in carry case
